### Theatre now Operating Under New Management

Commencing with the show "Over the Hill" screened in Oyen theatre last Friday and Saturday, Howard Wade assumed his duties as local manager of the theatre here.

The News is informed that plans are being made to arrange a circuit in which Oyen will get picture service every Saturday and Monday. It is understood that new projection equipment will be secured, and in the near future only sound-on-track pictures will be shown. Friday and Saturday, this week a Charlie Chan picture will be shown.

### Reduced Prices on Auto Licenses Effective Monday

The reduced prices on automobile licences goes into effect next Monday, and Mr. F. C. Bliss, local issuer, expects to have a busy day. A straight downward revision of \$5.00 per vehicle on prices charged last year, was recently announced by the provincial government.

The new schedule of prices has been received with mixed feelings. Those who had purchased licences just prior to the announcement of a reduction in price effective April 3, are not very pleased, while those who have not yet bought their 1933 licences are well satisfied to save \$5.00 by waiting till Monday. When the announcement of the reduction was made in the legislature, Premier Brown remarked that the schedule adopted for 1933, did not necessarily indicate that a similar schedule would be in effect in future years.

There appears to be no reason why the licence fees for motor driven vehicles, could not be set in December for the following year.

Sir Edward Hiffe, president of the Association of British Chambers of Commerce, recently made the statement that in 1932 150,000 to 200,000 more people were employed in Great Britain than would have been working, had the fiscal system of the country not been altered. When confidence in industry returned, Great Britain would be in a better position than any other country to take full advantage of it. Before this could happen, however, taxation must be reduced.

With wheat selling at approximately half a cent a pound, the outlook for industry in this country does not look particularly rosy (reports to the contrary that prosperity is just around the corner, notwithstanding). Till the west obtains more purchasing power through higher grain and stock prices, we will not be able to say with sincerity, "well, that last depression was sure a humdinger!" We still have the Depression with us.

In the present tendency to ruthlessly slash salaries, we do not notice any scramble on the part of those in authority to fall in line and reduce their own remuneration. There may be a few isolated cases but they are the exception, rather than the rule.

### Hobberlin's Style Leadership

Hobberlin's style leadership has never been questioned. The designing of their models is no hazardous affair but the thoughtful and careful production of an expert and qualified designer whose first interest is that all his styles are correct in every detail—and up to the minute.

Back of the exceptionally fine range of patterns are many months of planning, designing and consultation with British and Canadian woolen mill experts. For every pattern chosen, there is a dozen rejected, for Hobberlin's selection must be the best.

The low prices now prevailing for a Hobberlin made to fit you suit put them within the reach of all.

## ESTIMATED COST OF FARMERS' AID FUND IS GIVEN

Ottawa, Ont.—Cost of the agricultural stabilization fund to the federal treasury will be more than \$4,000,000, but less than \$10,000,000, dependent on the volume of business in the commodities affected on currency exchanges, said Premier R. B. Bennett. The Prime Minister made this estimate in the House of Commons when questioned about the fund by Rt. Hon. Mackenzie King, leader of the opposition. Mr. King asked why provision for the fund should be made in the relief bill then before the House since it was not a relief measure, but a bonus or subsidy.

"It is not a bonus or a bounty in the ordinary sense of those words," said Mr. Bennett. "It is properly a relief measure and it is dependent on the low price of farm products and the depreciation of the currency of the country to which they are chiefly exported."

The relief bill provided for farm as well as unemployment relief. Mr. Bennett went on to say that the prices of farm commodities made relief necessary. The stabilization scheme would provide relief for the farmers by improving prices for the commodities it applied to, and providing security against exchange fluctuations.

## Hitler In Command

Act Passed Granting Nazi Chief Four Years of Dictatorial Power

Berlin, Germany.—The Reichstag, with only the Socialist opposing, passed an emergency act yesterday granting Chancellor Hitler's demand for four years of dictatorial power.

Chancellor Hitler, shouting above the cheers of his Nazi deputies, demanded four years of dictatorial power. He regarded the issue of the emergency to the background, lifted the destruction of Communism to the fore of his program, reiterated the familiar Nazi thesis of arms equality for all and promised a "barbaric severity" against all traitors.

Waves after waves of applause and cheers drowned his voice from time to time. The Nazis, who control the Reichstag, had already passed a law that, once adopted, the Reichstag would be recalled only in the event of a vote of no confidence in the government of its acts when the assent of the Reichstag is desirable.

The first big cheer came when he expressed his approval of "public decapitation" of the men who set fire to the Reichstag building just before the last election. There was tumultuous applause also at his announcement of a campaign of "barbaric severity" against all guilty of treason.

"No gigantic revolution of similar dimensions ever has been carried out with such unvarying success," he cried, and the Nazis cheered again.

He condemned as "an unrepentant criminal" the 1918 revolution which gave birth to the German republic, now virtually destroyed to make way for the new regime.

## Expect Price Increase

Jams and Marmalade To Cost More, Is Prediction

Hamilton, Ont.—An increase in the cost of jams and marmalades is foreseen by Col. Armand Smith, of E. D. Smith and Co., Winona, as a result of the sugar and sugar beet shortage. Fifty per cent. of the content of jam is sugar, he said.

Wine will be increased five cents per bottle, said William A. Liles, prominent grape grower and wine merchant of Vineland, unless—and he thought this unlikely—the liquor control board absorbs the additional costs caused by the sugar excise tax and that on profit profits.

## Air Station To Be Demolished

London, Eng.—Howden airship station, in the Yorkshire East Riding, home of the R-100, and during the war, of other airships, is to be pulled down. Howden airship shed cost £250,000, and was completed in 1921. The entire buildings cost £750,000.

## Follow Canadian Plan

Washington.—Proposals for re-financing United States agriculture and home mortgages along the same general lines as the Canadian system will be sent to congress soon by President Roosevelt.

## Peace Club Organization

Premier of France May Meet Mussolini To Further Plans Paris, France.—A trip by Premier Edouard Daladier to Italy for a direct discussion with Premier Mussolini may be the next move in efforts to organize a four-power "peace club," it developed here.

The meeting apparently depends on the reaction of Premier Mussolini to the conversations in Paris held by M. Daladier and Prime Minister Mackenzie MacDonald, of Great Britain. The British and foreign statesmen discussed the Mussolini "peace club" project, which the Italian premier had explained to Mr. MacDonald when the British Prime Minister was in Rome.

Semi-officially it was revealed no plans have been made for the Daladier-Mussolini meeting, which probably would take place in northern Italy. For a number of years the Italian premier has made it a rule not to leave his own country.

It is believed the French have asked the Mussolini plan, but certain modifications have been asked. The French want the "peace club" to operate within the framework of the League of Nations because they believe they would be able to muster sufficient influence in the league to out-guess or counteract a possible Italian bloc against them.

## Wheat Conference

Plans Have Not Yet Been Advanced For U.S. Participation

Washington.—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization, but this part of President Roosevelt's program of economic relief by international action is believed to be awaiting congressional consideration of the administration's farm relief program.

A significant note in the new American government's plan to reduce trade normality through reciprocal agreements with customer nations was Secretary of State Hull's announcement that just as soon as congress has completed work on emergency domestic relief legislation the president will request blanket authority to negotiate understandings involving exchanges of tariff privileges, lowering of embargo restrictions and removal of other barriers to foreign trade.

Meanwhile, the wheat conference was awaited as a remedy to the existing acute world condition in which exporting countries hold vast surpluses while countries in need consider the president will request blanket authority to negotiate understandings involving exchanges of tariff privileges, lowering of embargo restrictions and removal of other barriers to foreign trade.

## Home Rule For Canada

Premier Brodie Of Alberta Would Give Canada Right To Amend Constitution

Edmonton, Alberta.—Full right for Canada to amend her own constitution, giving home rule in every sense of the term, is proposed in an amendment which Premier Brodie would bring to a resolution under debate in the legislature here.

The amendment was to a resolution moved by Col. F. C. Jamieson, Conservative, Edmonton, who proposed that the provincial government endeavor to make an agreement with the Dominion that no request for an amendment to the B.N.A. would be made without the consent of this assembly.

## A Narrow Escape

Little Girl Ran Over By Train, But Is Uninjured

Didsbury, Alberta.—Two-year-old Clara Klein, daughter of Mr. and Mrs. Otto Klein of Didsbury, was run over by a train, but is alive and uninjured although badly frightened.

The child was walking on the railway tracks when a train approached. Terrified, she started to run but stumbled and fell.

The engineer applied the brakes. The engine, however, passed over the little girl.

Members of the train crew tumbled hastily from the cars and found Clara beneath the coal-tender. The child was slightly hysterical but had escaped without a bruise.

## Starting Bank Probe

Ottawa, Ont.—The government will set to work at once to set up the royal commission to investigate the Canadian banking system and consider the pros and cons of arguments in favor of a central banking system.

The commission was confirmed in the budget speech of Hon. E. N. Rhodes, Minister of Finance, in the House of Commons.

## Treatment Of German Jews

Canadian Delegation Asks Premier Bennett To Investigate Trouble Ottawa, Ont.—Jewish members of the House of Commons, consisting of W. B. Jacobs, A. A. Heaps and Samuel Factor, waited on the Rt. Hon. R. B. Bennett, Prime Minister and Minister for External Affairs, asking, in a joint communication, that steps be taken to ascertain the nature of the mistreatment alleged to have been suffered by German Jews since the Hitlerite government came into power.

The Prime Minister received the delegation sympathetically and undertook to communicate with Dr. Oscar Siket, under-secretary of state for external affairs, who is in London, asking for a complete report on the situation.

The delegation took the view that Canada, being a member of the League of Nations, of which Germany is also a member, and that as racial and religious rights are safeguarded by the league, appropriate action could be taken by that body to preserve Jewish rights, which, it is claimed, are being attacked by the Hitlerite forces.

## MANY SIGNS OF WORLD RECOVERY ARE IN EVIDENCE

London, Eng.—In an optimistic speech in the House of Commons, Neville Chamberlain said he could not see why the world economic conference would not be held within the next two or three months.

The Chancellor of the Exchequer has been charged with being too pessimistic in recent months, but this speech found him in a different mood.

"Looking over the world," he declared, "one can see indications of recovery in recent months, but this speech found him in a different mood. The Chancellor of the Exchequer has been charged with being too pessimistic in recent months, but this speech found him in a different mood."

"One can see indications of recovery in recent months, but this speech found him in a different mood. The Chancellor of the Exchequer has been charged with being too pessimistic in recent months, but this speech found him in a different mood."

Although there had been stagnation in some sections of British trade, there had also been considerable activity in others. For instance the first two months of this year had seen automobile exports equal both in number and value the exports of three months of last year.

One bright but vital reference was made by Mr. Chamberlain to the domestic employment situation. "The policy of aiding unemployment by instituting relief works," he said, "has been tried, but it failed. We do intend to resume it."

## THE SOUTH ATLANTIC'S FIRST FLOATING AERODROME

The Norddeutsche Lloyd liner "Westfalen," of 5,000 tons, has been converted into a floating aerodrome and is to be placed in the South Atlantic Ocean for the use of pilots on the way to and from South America.

The aerodrome is shown in the picture on board the "Westfalen" for starting flying boats.

## SITS WITH LEAGUE

A recent photograph of Hugh R. Wilson, United States Minister to Switzerland, who has been named as the United States representative who will sit at the League of Nations deliberations on the Far Eastern trouble. Although the United States will not vote, nor will it bow in League decisions, it will cooperate with other nations in endeavoring to find a solution to the Sino-Japanese tangle.

## Large Conversion Loan

Opportunity May Be Presented To Canadian Bondholders In The Fall

Ottawa, Ont.—A large conversion loan is expected to be laid before Canadian bondholders early in the fall but it is unlikely any issue will be offered before that time. It is learned here. In his budget speech Hon. E. N. Rhodes, Minister of Finance, forecast a conversion loan "at the opportune time."

The heaviest obligations of the government mature as a rule late in the fall this year. It is understood the funding requirements will be in excess of \$200,000,000.

## Canadian Banks Sound

Chartered Bank Closes Through Without Assistance

Ottawa, Ont.—One of the chartered banks of Canada came through a "crisis" in which \$10,000,000 in deposits were withdrawn, without the aid of assistance from other banks or from the Dominion government, Premier W. B. Bennett told the House of Commons.

The Premier mentioned this as an instance of the soundness of Canadian banks when his government was charged with unfairness in not coming to the aid of the Manitoba savings office last year.

## Alberta Redistribution

Edmonton, Alberta.—The government will inquire into redistribution of provincial rights if the legislature adopts a resolution introduced by Hon. O. L. McNaughton, Minister of Public Works. Quea reduction in the number of legislative members would result, it was stated, if such an inquiry was held.

The Norddeutsche Lloyd liner "Westfalen," of 5,000 tons, has been converted into a floating aerodrome and is to be placed in the South Atlantic Ocean for the use of pilots on the way to and from South America.

The aerodrome is shown in the picture on board the "Westfalen" for starting flying boats.

## Continue Relief Plan

Minister of Labor Replies To Question Of Opposition Leader

Ottawa, Ont.—The Dominion government will continue to do in the future what has been done in the past year with regard to unemployment relief, Hon. W. A. Gordon, Minister of Labor, told the House of Commons. The minister was replying to a question in which Rt. Hon. Mackenzie King, leader of the opposition, asked whether "apart from the aid, the minister had any comprehensive, co-ordinated plan to announce to the House dealing with unemployment relief."

The government's policy was that moneys would be devoted first to assisting the provinces where they were unable to take care of their own people, said the minister. The government would help the provinces to protect any schemes which they may conceive or which the Dominion may conceive, within the constitutional limitations of the governments to provide employment or take care of direct relief.

Mr. Gordon believed the situation was not getting worse. He knew there were people who would be unemployed, but he was sure that the government would be able to take care of them. He said that the government would be able to take care of them.

## Wins Air Trophy

Edmonton Flyer Awarded Recognition For Meritorious Service

Ottawa, Ont.—Maurice Burbridge, instructor of the Edmonton Flying Club, has been awarded the trans-Canada trophy for meritorious service to aviation during 1932, according to an announcement issued recently from the headquarters of the National Defence Department.

Burbridge is the sixth winner of the trophy, annual award of which began in 1927. Mr. Burbridge joined the Royal Flying Corps in 1916. He was appointed instructor to the Edmonton Flying Club in 1924 and to his energy and leadership has been attributed the outstanding record of that organization.

## Frowns On Lotteries

Premier Bennett Says Winnings Should Be Forfeited To Crown

Ottawa, Ont.—Expressing the opinion that the winnings of all lotteries should be forfeited to the crown, Prime Minister R. B. Bennett, in the House of Commons, today made "strong opposition" to anything that would stimulate speculation among the Canadian people. Mr. Bennett was winding up a brief discussion on the bill amending the criminal code respecting lotteries introduced by P. E. Clark (Barrington), Minister of Justice. The bill was talked out.

## GOVERNMENT TO STUDY PLANS FOR LIFE INSURANCE

Ottawa, Ont.—The House of Commons took the first step to extend for another year the government's unemployment relief legislation and clothe the administration with wide powers to deal with the "peace, order and good government" of the country.

Without recorded division, a resolution was passed instructing the government to bring in the relief legislation, climaxing a week or more of debate.

The government is gathering data on a contributory unemployment insurance scheme, but every turn collides with the constitutional rights of the provinces. Hon. W. A. Gordon, Minister of Labor, told the House that it will be necessary for the provinces to surrender some legal rights before a nation-wide scheme is possible, said Hon. Hugh Guthrie, Minister of Justice.

At the recent Dominion-provincial conference, continued Mr. Guthrie, the provinces declined to surrender their legal powers over insurance and were opposed to an amendment to the British North America Act to enable the Dominion to act alone.

Before any federal scheme could be established, the Dominion must have power to compel employers and employers to contribute to the central fund—a power now vested in the provinces.

The Dominion placed no detailed insurance scheme before the provinces at the conference, the labor minister said, discussion ranging from a constitutional issue to a political issue. Until that barrier was removed, details were impossible.

## CHURCHILL RAPS FOREIGN POLICY OF MACDONALD

London, Eng.—Prime Minister Ramsay MacDonald, facing the House of Commons for the first time since his Rome peace conference with Premier Benito Mussolini, of Italy, ran into bitter opposition from Rt. Hon. Winston Churchill, former Conservative Chancellor of the Exchequer.

Mr. MacDonald sought to assure the House of what he regarded as his Rome peace conference with Mussolini "peace club" plan and of his belief that, with slight redrafting, the British and the Mussolini plans might be made to coincide. His speech brought cheers from the government benches, but roused Mr. Churchill to a bitter attack on the whole British foreign policy.

For four years, the former chancellor said, the Prime Minister had directed the entire foreign policy, and yet the United Kingdom was nearer war than before.

He described the conversations Mr. MacDonald had with the Italian premier as a visit to "Don Quixote and Sancho Panza."

He contemptuously scored methods of the world disarmament conference as "measuring winds at Geneva" and "a feeble effort to put on the apparatus of war." France, he maintained, could not support the British disarmament plan which the French and British had devised, and yet the United Kingdom was nearer war than before.

# The Agricultural Dollar

Value Has Greatly Decreased During Last Few Years

A Brant county farmer in a letter to the Farmer's Advocate, rightly deplains the shrinkage in the value of the agricultural dollar, due to the ridiculously low prices of farm commodities and the relatively high obligations he has to meet in taxes, insurance, rent, etc. This tiller of the soil has kept a record of transactions over a period of years. On delving into the past for purposes of comparison with present day financing problems he discloses the following:

"I run my hogder of 1914 and find, October 1, sold 100 bushels of wheat at \$1.05 per bushel—\$105; October 29, 6 bush at 7 cents—\$42.50; November 1, 1 cow at 5 cents—\$7, making a total of \$152.50. On the other side, I find: December 1, taxes, \$47.28, a little less than one-third of the income."

Then I turn to 1932 and find: Wheat, 100 bushels, sold at 45 cents—\$45; 4 bush at 31 cents—\$124; 1 cow at 2 cents—\$2, or a total of \$111. But now comes the rub: for turning to the other side of the ledger I find the item of \$130 paid for taxes. This shows how the dollar has shrunk without even mentioning the Dominion and Provincial taxes that we pay indirectly from day to day."

One can readily see that the agriculturist today has a hard row to hoe for a quantity of farm produce sold two decades ago would have paid the taxes five times over, whereas today the same quantity won't even cover the tax bill and he is left to wonder that the farmer must be paid more for his commodities if he is to make ends meet. We can't expect better times until wheat, hogs, cattle and other farm products bring much higher prices—Kitchener Record.

## Activity In Grain Shipments

### Heavy Grain and Apple Shipments From Vancouver Port

Activity at the port of Vancouver continues at a high pitch, and February grain shipments are showing big figures for the period. Total grain exports from the opening of the present crop year on August 1, 1932, to February 28, 1933, are far in advance of the corresponding seven months of the previous crop year, with the great bulk of shipments going to the British Isles and European ports. A marked increase in apple shipments through Vancouver and other British Columbia ports has been a feature of this year's business.

For the month of February, total grain shipments aggregated 10,055,654 bushels, a new port record for the month, as compared with 6,795,512 bushels for the same month last year. Total grain shipments for the crop year up to the end of February, 1933, amounted to 68,049,315 bushels as compared with 44,556,480 bushels for the corresponding period of 1932. Of this year's total 58,072,790 bushels went to Britain and Europe, 8,866,661 bushels to the Orient, and the remainder to other countries.

Apple shipments through British Columbia ports up to the week ending February 18, 1933, totalled 701,750 boxes as compared with 150,600 boxes to the same date last season.

## Received His Share

Man Got Household Goods As Divided By Former Wife

A recently re-wed man, says the Chicago News, received his share of the household goods the other day as divided by his former wife, now living in Santa Barbara. Some 470 pieces had been put in storage when the marital squabble occurred, and the assortment included some choice bits of old mahogany, pieces of Staffordshire and Spode, rugs, mirrors and pictures. When he unpacked the crates he found his share was: One stuffed owl, one baby carriage, five pairs of arms, an Apolitical, and butter churn, a box of marquette costumes, an assortment of college pennants, one red-leather chair.

## A Real Bargain

Admiral Sir Murray Anderson, the new governor of Newfoundland, reminded his friends the other day that Newfoundland was discovered by British sailors, who got \$20 for it. Although money went farther in 1497 than today, the governor thinks somebody got a bargain.

## Saskatchewan Relief

Figures Show Wide Extent Of Under-Taking To Aid Farmers

Administering to 275,000 people last year, the Saskatchewan relief commission distributed 4,500,000 bushels of wheat in seed alone, 300,000 bushels of oats, 500,000 bushels of corn, and 4,000,000 gallons of coal oil according to Clarence B. Daniel, general manager of the commission, who characterized its work as probably the biggest relief undertaking on the continent.

The system is one of return as well as distribution, the latter being made with provision for repayment before November of this year. Mr. Daniel was interviewed while on a visit to St. John's N.E.

Already, under the repayment system, the commission has collected 2,000,000 bushels of wheat, 300,000 bushels of oats, 150,000 bushels of barley and 200,000 bushels of rye.

Conditions in Saskatchewan improved this year, said Mr. Daniel, but more work will be necessary until August.

## Claim Is Unchallenged

Rutland Is Most Law-Abiding County In Great Britain

For the tenth year in succession there were no prisoners for trial at the assizes held recently in Oakham, England. Rutland's claim to be the most law-abiding county in Great Britain is unchallenged. Only 16 policemen are needed to watch over the 97,000 acres of the county and control the 17,000 or so Rutlanders. W. W. Golder, chief constable, finds it difficult to recall when the white-washed prison cell in the police station last had a tenant. He has ample room for indulging in his favorite pastime of gardening.

In the opinion of Mr. Golder, absence of big towns is largely responsible for lawfulness. Crime is a product of environment, he says. In this cheese-making county everyone knows everyone else and they all try to be friendly to each other.

In many ways the life of Rutland remained the same as it did in feudal days. Old families have managed to retain their estates to a greater extent than in most other parts of the country. The landlords show great interest in the well-being of their tenants and by assisting them whenever possible, help to make them contented. There are worse systems than the old feudal system.—St. Thomas Times-Journal.

## No Ban On U.S. Broadcasts

So Declares Canadian Radio Broadcasting Commission

No ban is being placed on the use of Canadian radio stations similar to the Canadian radio broadcasting commission declared. A Toronto radio station and its announcer will be called upon by the commission to explain statements made over the air alleging a commission "order" against United States broadcasts.

Far from prohibiting United States programmes, the commission states interest in the well-being of their tenants and by assisting them whenever possible, help to make them contented. There are worse systems than the old feudal system.—St. Thomas Times-Journal.

## A Good Record

Nineteen of twenty-one murders committed within the precincts of Greater London were solved by the metropolitan police last year. This is a record the authorities of the great British metropolis may well be proud. Politics and slack court procedure are things that do not enter into the question of justice in the Old Country. Hence this notable achievement.

Scientists say that smiling babies are no more intelligent than solemn ones.

## Toured Sahara On Bet

Young Swedish Society Woman Crossed Desert In Small Car

As a result of a bet, Madame Dickson, a beautiful young Swedish society woman, has just crossed the Sahara Desert and equatorial Africa in a small automobile. Accompanied by a driver partly in Munich of being interested only in dancing and cocktails she bet that she could cross the desolate country. Mrs. Dickson started the next day, accompanied only by a native boy, and went through Kenya, Uganda, the Belgian Congo, French Congo, Nigeria, and across the Sahara by way of oases, tracks and Biskra. Parts of the route were under water, and near Port Lanyu one large and five small bridges had to be made away. She rode 70 miles on horseback to a military post for help, and in 24 hours all the bridges were repaired.

## England's Historical Exhibit

Wheat From Land Tilled 80 Years Sent To Grain Show

English farm land, tilled continuously for 80 years, will be represented at the forthcoming World's Grain Exhibition at Regina.

Specimens of wheat grown on the same ground for 80 years will constitute part of an historical and educational exhibit arranged by the Rothamsted experimental station at Harpenden, Hertford, according to word reaching the city Saturday, March 18. The exhibit will also demonstrate by graphs and models the effect of extended research into cultivation of wheat, manure and other crops.

In addition there will be an exhibit in the commercial section of machinery and other products of British manufacturers.

## Fruit Growers Organize

Formation of an organization to be known as the "B.C. Coast Growers' Association," was decided upon at a meeting of 26 delegates, representing approximately 1,000 fruit and berry growers of British Columbia. This action was taken following reports from Penitence that the B.C. Fruit Growers' Association would be unable to carry on.

## Nothing To Say

Leaving England for America, Sir Ronald Lindsay, the British Ambassador, said to reporters: "There is little more that I can tell you, for I have gone a gold standard of silence." This would be another ideal world medium of exchange for those in high places or low who have nothing to say.

Defoe based his story, "Robinson Crusoe," largely on the experiences of Alexander Selkirk, a castaway.

## FANCIFUL FABLES

## Doing Good With Little

Scheme For Helping Other Workers With More Than Money

Benjamin Franklin, whose caninism seems never to have been exhausted, once hit upon a unique plan for multiplying the good his money might do. While in France he sent ten louis d'or, about \$45, to a friend, writing him as follows:

"I do not pretend to give such a sum; I only lend it to you. When you shall return to your country with a good character, you could do a great deal of good by the way of doing it in time enable you to pay your loans. In that case, when you meet with another needy man in similar distress, you must pay me by lending this sum to him; enjoying him to discharge the debt by a like operation, when he shall be able, and shall meet with such another opportunity. I hope it may thus go through many hands before it meets with a knave that would pervert its progress. This is a trick of mine for doing a great deal of good with a little money. I am not rich enough to afford much in good works, and am obliged to be economical and make the most of little."

It's a scheme that works with more than money. A friendly tip to a man by the way of the money he owes to which he has been thrust; a cheering visit to the bedside of an acquaintance who has slipped up; a word of encouragement to the friend who is blue—all of these, too, may be increased as were Franklin's louis d'or. To be sure, the obligation to gratify by passing the money is not to be so explicitly stated; that remarkable thing about all is that it need not even be mentioned. It is up to some wise provision of human nature, almost invariably begets friendliness.—Rotarian Magazine.

## Agricultural Stabilization

Expected That Farmers Should Realize More On Sales Of Livestock

The most important news the budget brought to the farmers of Canada was the announcement of the agricultural stabilization fund. By it the government guarantees that Canadian exporters to the markets of the United Kingdom will be protected against the fluctuations in sterling exchange. This fund will make up the difference to the exporter between the actual value of the pound sterling, which today was \$4.11 1/2 cents in Canadian funds and a fixed price of \$4.00.

The stabilization will be applied to animals, meats (including bacon and hams), poultry, fresh fish, canned fish, tobacco, cheese, milk products, canned fruits, canned vegetables, maple products. Instead of the export, the value of his cheque on the basis of \$1.11 1/2 to the pound sterling, the bank will pay him at the rate of \$4.00 and charge up the difference to the stabilization fund.

It is estimated that with the present rates, when the sterling is approximately 12 per cent below the \$4.00, the improved export business which it will encourage, it will cost the government roughly \$6,000,000 a year. It should be noted that the \$4.00 is not the price to the exporter by \$10.80, agricultural officials estimate. It should boost the price in the domestic market to a somewhat similar amount. It is figured it will increase the price of live pigs in the Canadian yards by one cent a pound.

## Enemies Of Man

Worry, fear, anger, hatred, are the enemies of mankind. It is doubtful if they can ever be entirely eliminated. But when their baneful influence is more generally recognized and understood there is no doubt that their virulence can be lessened. It is their virulence that they dictate the attitudes of individuals there can be no mental health; while they dominate the actions of nations there can be no peace.

## Value Of Vegetables

The value of vegetables grown on farms (plots of one acre and over) in Canada in 1930 was \$28,071,354, of which tomatoes accounted for nearly four million dollars, sweet corn 1.3 million, and green peas, onions and cabbages each slightly over a million dollars.

## Puzzle For Posties

Swissland, designing its new stamp along puzzle lines, cannot receive full credit for introducing that distracting thing into postal circles. Too many of those who address envelopes seem to have had the same idea.

A widely advertised cigarette made exclusively from tobacco grown in Canada is on sale in Great Britain and is proving a favourite.

## Gardening Notes

By Gordon Lindsay Smith

When this old earth really begins to warm in the spring the normal person feels an impulse to get out and dig, but the experienced gardener advises extreme caution. The earth is too wet there is too danger of a nasty cold, not to mention dire consequences to the soil itself. Too early working will cause the latter to become down hard and may require a whole summer of constant digging and raking to get it back into its old crumbly self again. There is a simple test. If the soil crumbles after a little is squeezed in the hand, or if it does not muddy the boots, it is safe to go ahead.

Pruning and Training.—Grafting is not a difficult operation. The main thing is to get a portion of the inner bark of the scion or twig being grafted onto the tree exactly opposite and tight up against the inner bark of the limb of the tree, so that the two may grow together. When working on a tree it is best to trim the scion or twig twice and insert them around the edge of the sawed-off portion with the two inner bark in close contact. Cut the scion or twig to the length of three to four feet, and remove all but one twig. After putting together, tie tightly with raffia or some soft twine and cover all top and bottom with grafting wax. It is advisable to get some good Government bulletin on this subject before attempting the work. By grafting onto a tree with a few rabbits or mice have girdled and which would die without this treatment, and can put a complete new top on a tree without the loss of a non-desirable variety.

Grafting and training opens up interesting possibilities to the gardener. One apple can be made to fill the place of three ordinary trees if an early variety like the Yellow Transparent or Astrachan, a good early cooker, and a late variety like the winter apple such as the McIntosh are all grown on the same trunk. By careful pruning and training, shrubs can be made to resemble trees and weed shrubs. One may make bushy trees of climbing roses by only allowing a single stem trained to a support and then encouraging this to branch by cutting it off when it reaches a certain height. In Japan, by judicious pruning and withholding of fertilizer and water, pines and oaks of very dwarfed proportions are grown in pails and tubs.

Early spring is the proper time to set out most new shrubbery, roses, ornamentals and fruit trees. Climbing vines and other things purchased make the grounds about the house attractive. These should be bought from the nearest reputable source of supply so that they may be planted as soon as possible. In planning this part of the garden it is important to remember that the Canadian conditions, and if satisfactory results are to be secured it is essential that good stock is bought. One should be able to find a wide range of prices quoted, just as in any other line, but here again as always, good plants, well-grown, and true to name cannot be sold at the lowest figure. Unless the plant is in prime condition with plenty of green bark, moist, pliable roots and large, live buds, and have little chance and if it lives at all a whole year will be lost in getting it started.

On arrival, the new plants should be planted immediately in moist soil, but if this is not possible, dig a shallow trench and "heel" in by covering roots firmly with soil. All shrubs, rose bushes, trees and vines should have tops pruned back and they should be set in permanent quarters a little deeper than where they were planted in the nursery bed. Give the roots plenty of room, spreading them loosely about the hole, then cover with good garden soil and water well. Fill in the remainder of the hole and press soil down firmly. In the case of trees, provide some support. If the wind in the form of a stout stake and with soft twine or raffia.

## American Jazz Banned

American jazz music, especially that brand produced by Negro orchestras and singers, which Germans call "Vergerung," has been banned from the Berlin broadcast station under the new government radio restrictions. It is announced. The ban was placed in accordance with Chancellor Hitler's cultural ideas, it was said.

Clark: "I have received a letter from a firm asking for a reference for one Mac Brown who used to work here."

Manager: "Toll them that he is a rugged and a thief, and that anything he knows he learnt from us."

Machines for setting type by photographic processes have been developed.

# One Of the Contributory Causes Of the Present Crisis is That People Do Not Love the Land

Few thinkers lay the cause of the present crisis on any one thing; and although there is some dissent of emphasis, most people include the following as the major reasons of the world's travail—in the realm of politics, the war debt, excessive commercial expenditure, international commercial paralysis due to high tariff barriers; in the realm of economics, over capitalization, over production; and in the realm of sociology, machines, individual extravagance.

There is not now, and perhaps there never will be, complete harmony over the order of importance of these causes. We even disagree on the present conditions of this continent. With the exception of the War debts and the tariff situation, the causes of the present crisis, the causes of the present depression (we use the word guardedly) as listed above are to a large degree localized. That is to say, they originate in North America, and the influence is felt within its confines. This realization is challenging, for it forces a deeper probing of the causes of the existing economic and social turmoil.

Perhaps an astute investigator would not for long miss the profoundly disturbing psychological basis of the present conditions. North Americans are rootless peoples. As a racial group, they are not endeared to the land. It is true that no single industry is as numerically great as that which derives its living from the soil, and that therefore the charge of rootlessness seems to be entirely unwarranted, but the trouble is that these people do not love the land. Rather, they wrest their livelihood from it; they take and take and take from the land, and they hate that which they toil.

The broad implication is that this is a continent that has never been loved, perhaps it is too true to say that since its soil is not loved, and dotting its wide reaches is a multitude of chucking hens, the Main Streets, with their restless, restless broods. Distorted instincts have made these towns unlovely and unlovable. The roots of most of their people have not penetrated the cement, asphalt to the good earth below; humanity and the soil have not met.

This condition has held for several decades now. Youth, brought up on the farm, years for the city and the city, has been the rule. And now the continent seems to be paying a twice-exaggerated retribution for its superficiality.

Man should not merely conquer the land, he should also win it. And that is where North America has so far failed. The tool that has created a distorted, resentful, warring psychology in the hearts of its looters, is weakening a subtle vengeance that may yet be more terrible than anyone can conceive.—Winipeg Free Press.

## An Envious Position

### Britain Has Confidence Of People Impervious To Panic

Walter Lippman, writing in New York Herald-Tribune says: "Why is it that Britain is comparatively better placed at the moment than so many other nations? Is it because her fundamental difficulties are smaller? Not at all. Her difficulties are not smaller. Her difficulties are real ones. But what Britain has had is the confidence of a disciplined people, of a people politically competent, that they are impervious to panic. In the past few months the American people have gradually had it brought home to them that the ordinary happy-go-lucky methods of each for himself, each Senator, each faction, each state, each section, each privileged group for itself, may be all very well in easy times, but in the midst of a crisis they are as impossible as in time of war."

Professor Einstein announces that up to now he has been unsuccessful in reconciling the Quantum theory with the Relativity theory. All of us will therefore have to be content with perfectly understanding each theory separately, as we now do.

The British food control is watching closely the effect on retail prices of present and future restrictions of meat imports.

## Certified Seed Potatoes

### Official Tags Constitute Guarantee To The Public

Canadian certified seed potatoes are known in many countries of the world, but, nevertheless, many people have a hazy idea of what is implied by the word "Certified." There need be no doubt as to the word's true significance for the Dominion Department of Agriculture has defined certification as a means of recording seed stock that is of good type, from vigorous plants, and, as far as practical, under advanced conditions of farming, relatively free from serious diseases. When potatoes have been inspected in the field and after harvest by an authorized officer of the Dominion Department of Agriculture, and have been found vigorous and to conform to the standards set of freedom from serious diseases and of purity of variety, they may be certified. Official tags are issued for such seed stocks exclusively and these tags constitute the guarantee that Canadian certified seed potatoes are being dealt with.

## A SMART MODEL WITH CERTAIN VERSATILITY REGARDING MATERIALS

It's unbelievably simple to fashion. The scarf neckline is easy to handle, yet new and attractive in effect. The bodice is cut with raglan shoulders. All you've to do is to join the sleeves to the bodice, following the perforations for same. The skirt has length-giving panels at the front. As for materials for this charming model, it only remains for what occasion it is desired. For street, it is lovely in white crepe silk, crepe silk with white crepe silk scarf. Very effective and cool for spring and late summer is to make it with short sleeves of a crepe silk print with plain toning crepe. It's sporty with short sleeves of grey rabbit hair woolen with yellow crepe silk scarf. Style No. 575 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, The dramatic club will shortly commence rehearsals for a play which they expect to produce sometime in May. Chosen particularly for its laugh provoking qualities, the comedy selected for presentation has not a dull moment in it, and the fun becomes more hilarious as the play proceeds. The club has received a number of requests to give a repeat performance of Safety First.

This week the district has been basking in mild sunny weather during the day time with light frosts at night. Each day round noon the temperature has been around the 60 degree mark.

### Teachers Meet

The Prairie Teacher's Get Together Club held their regular monthly meeting in Oyen Saturday, March the eleventh at the Oyen School.

The meeting opened with the answering of the Roll Call, "Hobbies". It was then decided that the next meeting of the group would be held in Oyen, Saturday, April 8, at the home of Mr. R. J. Scott. The roll call for this meeting is to be answered with "Game for the Playground and Classroom" and the programme topic will consist of a discussion of "Difficult Problems and Review Devices".

The business of the meeting concluded, Mr. Blake McLean gave an interesting paper on "Arithmetic Devices".

The meeting was brought to a close by a dainty lunch served at the home of Miss C. Desmond.

### Beatty of the C.P.R.

As Montreals Know Him  
Reprinted from Montreal Daily Herald

E. D. Beatty is a quarter-back who is also a law, but by a twist of fate, became a railway president.

Though he could make the first string on the Varsity gridiron sound he had no difficulty with the C.P.R. and has played regularly ever since. They say it was shamusery coaching that turned the trick (Lord's not Saint).

He is probably the shiest man in Canada. The ladies admire him because he wears his hat over one eye and walks with a quarterback swagger. The fact that he is a bachelor and apparently intends to remain one provides a second element of "je ne sais quoi" to keep feminine hearts in a state of flutter.

Business men like him because he talks straight from the shoulder and has a successful talent for getting at the core of the most intricate problem.

The man in the street respects him because he preaches The Gospel Of True Canadianism. Politicians fear on him because he is the boss of the C. P. R.

The Prince of Wales is another citizen who thinks Beatty is "all right," and His Royal Highness is always ready to prove it by officiating at the launching of a new C. P. R. ship.

Ordinary people respect him highly, and are sorry his railway is having a hard time.

As a youth he wanted to be a judge, but fate intervened and sent him a job in the C. P. R. legal department. Young Beatty refused to regard this as his life's work, but ultimately had to decide in a hurry when the late Lord Shamusnessy sent for him and asked him to be a Vice-President.

Here is one version of what Beatty said "Not!" "Tom!" Shamusnessy fired the young attorney with a stern eye and exclaimed, "My God, Beatty! Do you want to be a more lawyer all your life?" Young Beatty smiled and took the job.

Some people think Mr. Beatty is hard to reach and tales are told of citizens who wait for weeks for the call to conference. Sometimes he is the easiest man in the country to talk to, provided you can crash the other office.

He is one of the few leading citizens who go in for Good Works without thought of publicity or prize. Not long ago the mother of an ex-convict Home Youth who had lost his job in the States, was destitute and needed crutches. Beatty, in disguise, telephoned to E. W. The Chairman and President of the C.P.R. came to the phone in person, disguised as the mother, and told her not to worry and instructed the C. P. R. official to send the boy to ship him back to his home, paying the fare out of his own pocket. These are the things which have won him a reputation for kindness and humanity.

He was born at Thorold, which Ontario people will tell you is situated in the Garden of Canada. He attended several schools in Toronto, and ultimately scratched his way into, through and out of Toronto University and was called to the Ontario Bar. That was in 1901 and almost at once he went into the C.P.R.'s law department. He stayed there for thirteen years before becoming the company's General Counsel. In 1916 he was elected to the Board. In 1918 he made him President, when Lord Shamusnessy dropped out of his two portfolios. Six years later he added the title Chairman to his list of honours. Since then he has held both jobs and has had plenty of worries on his hands.

He thinks co-operative management will solve the railway problem. He does more travelling than many salesmen. To-day you will see him in Calgary. Next Tuesday he will be in Montreal. On Wednesday he will appear before the Railway Commission in the Capital. On Thursday he can talk with him by long distance to the Empress of Britain, outward bound. Wherever he goes he carries his work under his hat. When times were good it used to be written that he had the Biggest Industrial Job in The World. The job to-day is probably just as big but infinitely more arduous.

His continued good repute is largely due to the idea that he is not about that he is honest, honorable and, taking him by and large, as representative a citizen of Canada as can be found between the two oceans.

And there is plenty of evidence to support the charge.
